Dan, I worked on this Friday while I was here at the office, after hearing about the truck fire.

Please know that I am trying to keep pressure on the city council to see Hollywood not as just another neighborhood in CD 13, but rather as a crown jewel in our tourism economy. I feel the need to push the sense of urgency on a number of fronts – so give Mitch a heads up, that it is my hope that this helps him to build a coalition to protect Hollywood – on a number of fronts.

Talk manana.

Kerry
